To find Titles with out copies go to Catalog>Update Titles>Remove Titles

Check: Preserve eBooks, Preserve titles with 856 links.

*If you have done any title cataloging without adding copies, backdate to before this work was done. If you do not do that, enter date as today’s date. CHOOSE PREVIEW

Look in Job Manager and you will be able to decide if you will delete all, or decide Title by Title by looking at the individual Title records.

When you delete a title the following message will appear. Check the box if title is being weeded. Click on Yes. Note that this removes title from your library only. Other libraries in the district that own the title will not be impacted.
