To outline best practices surrounding digital citizenship and ethical uses of information, including paraphrasing/note-taking, documenting sources, as well as the potential consequences for academic dishonesty.

To create a shared expectation of citations and source evaluation across content areas and grade levels, specifically 5-12.

To formally adopt the Modern Language Association Style for our district’s use and provide an overview of the bibliographic style. In addition formally adopting NoodleTools for our district’s use and encourage co-teaching among librarians and subject-area teachers.

As a google district each of our students are issued their own individual Google, Chromebooks starting in 1st grade.

As Future Ready librarians we identify the importance of teaching digital citizenship and ethical uses of information. This district initiative focus particularly on 5-12th grade, where students are able to take their Google, chromebooks home each night.

5-6th grades serve as crucial years to develop a strong foundation of reputable technology habits and behaviors.

1. Board approved Academic Honesty Agreement (Policy 7300F) will be distributed annually to students. Records will be kept in Destiny, the library management system.

3. Continuous cross curricular support, modeling, promotion and exposure to best practices, good digital citizenship, and ethical use of information.
